REMARKS

The figures of births and deaths shown in this statement for week ending the 24th September, 1955, relate to 166 towns with an estimated population of 21,023 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 55% of the total number of towns representing 54% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 15,115 and 4,866 representing birth and death rates of 37.4 and 12.0 per thousand of population respectively.

(a) States (Part A and Part C).—The data here relate to 132 towns with an estimated population of 16,827 thousands. Information about Ajmer, Bombay & Madhya Pradesh could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 52% of the total number of towns representing 52% of the

total population is covered. The number of births and deaths recorded in these towns were 12,517 and 3,933 representing birth rates and death rates of 38.7 and 12.2 per thousand of population respectively. The table at the end gives the position by States

No town recorded a high death rate of 50 or over per thousand of population.

(b) States (Part B).—The data here relate to 34 towns with an estimated population of 4,196 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 71% of the total number of towns representing 65% of the total population is covered. The number of births and deaths recorded in these towns were 2,598 and 933 representing birth and death rates of 32.2 and 11.6 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
